

Epping's future planning depends on the opinion of the whole community

"EPPING TOWN CENTRE STUDY"

If you are a resident of Epping or North Epping including the Parramatta LGA please show your community support now by considering the following important points:

- I support improved conditions for local traffic
- I support that no commercial building should exceed 14 storeys
- I support an additional elevated crossing of Beecroft Road
- I support the provision of a parking station for shoppers and local business
- I support a further increase of recreational space
- I support the creation of 3 hour parking zones
- I support the creation of the three heritage conservation areas
- I strongly oppose any rezoning of single dwelling areas to five storey residential units

Strike out any of the above points that you don't support and then fill-in your name, address and signature.

Please forward this cut-out by **Monday 28 November 2011** to:
